

THE HEALTHCARE CHOICE

Healthcare offices across North America are keeping patients & staff hydrated, happy, and healthy with the Wellsys point-of-use purification system.

HEATH & SAFETY FOR STAFF & PATIENTS

- Featuring SafeTouch™ – anti-microbial protection for your healthcare facility. SafeTouch™ technology infuses the touchpad and surrounding surfaces with an organic anti-microbial ingredient.
- Pure Touch Dispense System - all features are designed to prevent cross-contamination near the dispense nozzle.

FRESH, CLEAN, PURIFIED DRINKING WATER

- Provide continuous drinking water purified by our multi-stage process including UV disinfection that reduces 96% of total dissolved solids (PCB's, chlorine, pharmaceuticals), as well as harmful bacteria and viruses.
- Cold and hot water options with adjustable temperature control.

EFFICIENCY & PRODUCTIVITY

- No more storing, spilling, or lifting 42lb (5gal) jugs of water – keeping your medical facility clean and safe!
- Touchless-dispense options allow for touch-free fill-ups.
