

WS PSD Sensor Dispense

- ✿ Sensor activated design allows for simple, touchfree dispensing of hot and cold water.
- ✿ Plug-and-play installation with a factory wiring harness included. Requires a hole be drilled in the plastic panel for the wiring to pass through. Easy, professional retrofit in minutes.
- ✿ Hot-water select features a safety delay to eliminate false dispenses.
- ✿ Sleek design developed and engineered to blend seamlessly with

- ✿ Incorporates advanced sensor technology to ensure water only dispenses when YOU want it to.
- ✿ Sensors are model specific. Available for models: WS 7000, WS 9000, WS 9000CT and WS 11000UV and will not void any pre-existing warranties.
